**Benchmarks** 

"The Future" Digital Information Managers

### Excellence

"Its not what you Preach its what you tolerate that makes the difference"

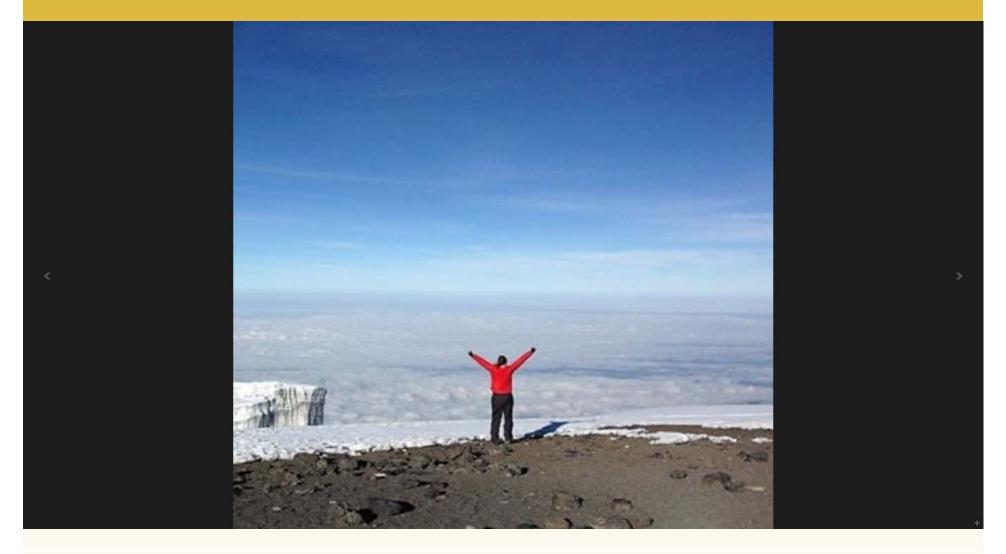

### Excellence "It's not what you preach; rather it's what you tolerate"

#### **Excellence III**

### Excellence

## So how big is the opportunity to achieve excellence

	Hardware		Solutions		Total
		(\$000,000)			
3	2014	2015	2014	2015	
Black and White MFP	5,486	5,321			
Color MFP	6,309	6,372			
Total	11,775	11,693	2,312	2,543	14,087

The opportunity to achieve excellence: Hypothetical Company in Floradise

**Bequi for this market is 2.1%** 

- Floradise total market size 2014: \$236,000,000
- Floradise company 2014 equipment Sales: \$19,000,000
- Floradise company Market Share

8.1%

So how big is the opportunity to achieve excellence in Floradise

10% Market Share \$23.6mm

- 15% Market Share \$35.4mm
- 20% Market Share \$47.2mm

### **Importance of Market Share**

- At 5 % Market Share, you have name recognition.
- At 10% Market Share you have brand recognition.
- Sales Staffing The Benchmark for Sales Rep Staffing of 50 Sales Reps / full 1% of BEQUI index is based on 10 % Market Share.

### **Sales Staffing to Benchmark**

A company that exists in a market that has a .5% Bequi index achieves \$3,000,000 in equipment sales in 2014. Which is a slight growth of Sales over 2013. How many Reps do they need to sustain that growth?

50 Reps / 1 % of Bequi U.S. Market \$11.4 Billion X .5% Bequi Market Share (M.S.) \$3mm / \$57mm = 5 %

= 25 Reps @.5% Bequi

- = \$57 Million

Sales Staffing = 25 Reps X (5% / 10%) = 12.5 Sales Reps.

### **Pursuing Future Excellence**

nvestment

Where should I invest my time to achieve the maximum return? How much are we talking about?

nvolvement

What key areas do I need to develop people involved in the direct achievement of the desired results?

nspection

How should I inspect to ensure the actions I take are paying off?

### So what's the Starting Point

#### **Current State of Many Sales Organizations**

•Net New Business is less than 5% of all equipment revenues (B/M 30%)

•Sales Rep Compensation is significantly increasing and production isn't. Compensation rates of 50%-60 % of the equipment G.P. (37.5% is the B/M, Forget 15% of Revenue.)

•Prospecting is haphazard and uninspected

•Sales Managers are in a reactive mode as a result of the lack of a documented Sales Management process.

•MPS is significantly underpenetrated which will lead to the same results in MNS.

•CRMs mask the lack of activity.

### Investments in Time or Expectations of a Sales Rep?
