WHY ARE WE HERE TODAY?

- WEBINAR - Contract Management & Earning NEW Revenue
- Individual Development Opportunity
- Contribution to Business Planning – let's elevate!

A circular graphic with a white background and a black border. It features the word 'career' in the center in a bold, black font. Surrounding it are various related terms in different colors and fonts, including 'network', 'education', 'strategy', 'target', 'success', 'solution', 'growth', and 'technology'. There are also some faint lines and dots scattered around the text.

*Leadership
Development*

A circular diagram representing the Professional Development Cycle. It consists of four colored arrows forming a circle: a red arrow pointing up labeled 'ASSESS', a blue arrow pointing right labeled 'PLAN', a green arrow pointing down labeled 'LEARN', and a black arrow pointing left labeled 'DO'. In the center of the cycle, the text 'Professional Development Cycle' is written in a simple, black font.

The Why?

As we **grow**, we must constantly look to the *evolution of process*

- To deliver to a larger customer base
- With increased performance
- Introducing new services & systems
- Controlling profit
- Increasing automation
- Reducing Expense

Contributing meaningfully to business development, and **creating opportunities** for Self and Team

How we Achieve!

Having a **growth mindset** that's driven by *internal excellence* and exceeding expectations

- Through our People
- By Reviewing Existing Practice with Fresh Eyes and Calculated ROI
- By Making Strategic Investments
- By Introducing New Systems
- By empowering others with controls, and job authority

PERFORMANCE NOW

IN ADMINISTRATION & OPERATIONS

1. Make yourself heard
2. Invite yourself to business planning discussions
3. Provide your insight
4. Make your case with \$, #'s, and value statements
5. Start with the pain, and look to the future

7

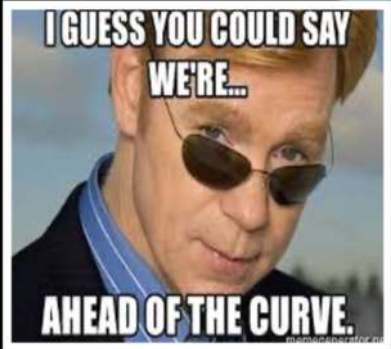

SOPHISTICATE BUSINESS PLANNING

- Establish **relationship & control authorities** with executive leadership group
- Speak to the **Career Path** you are working towards, and what you seek to develop for your team
- Clearly present **workflow**, job function within, and expected **controls**
- Introduce Administrative and Operational **metrics by job function**
- Set goals for **procedural documentation**
- Set goals to create **Tools and Forms** that aid **efficiency**
- Introduce **Training Materials** to accelerate gain & alleviate strain

8

SOPHISTICATE BUSINESS PLANNING

- How many Contracts are we administering in the ERP and how
- How many of those Contracts require Monthly touch
- How many Contracts have Mins < \$25
- How many Contracts are generating \$0 q-over-q?
- What is our Contracted asset : Networked asset ratio?
- How many straight leases exist in your banking portfolios?
- Who is responsible for GP LOC and to what level of success?
- Who reviews/creates Customer Programs offered by the business?
- Who plans for systems to support new Sales Initiatives?
- Do comp plans motivate Reps to sell strategically or simply sell?

9

“HOW MANY CONTRACTS ARE WE ADMINISTERING IN THE ERP AND HOW”

- Contract Types = revenue distribution
 - MNAV
 - Cost Per Copy
 - Accrual
 - ITT (ship-in)
 - Managed Services
- Bill codes (3) = asset coverage distinction
 - S&S, Svc-O, Sup-O, PassThru, T&M (how many T&M do you need)

Pro Tip: always be thinking of scaling the business and how to keep process intuitive while improving efficiency, but without EVER compromising quality!

**MAKE
YOUR
POINT**

LEASING & BUNDLING
(sales, strategy, revenue and cash flow)

- **Account Protection** – 5 Copiers on Straight Lease Vs 5 Copiers booked on supplements & bundled with AFM
- **Account Extension/Revenue Gains** – supplements with add-on term + “Service Extension”
- **Increasing Revenue Opportunities** – by bundling Service with the Equipment payment, we create revenue opportunities for contracts experiencing high Service GP.
- **Revenue Opps on TB Invoices** – we can have strategy to increase revenue and profit
- **Fee Sharing & Waiving** – origination, freight, late
- **Evergreen Contracts and Revenue Sharing**
- **Account Protection** – a bundled lease invoice is more difficult for a competitor to unwind and to buyout
- **Customer Efficiency** - 1 invoice to the Customer from the Lease Company; vs 1 from Lease Co and 1 from Dealer
- **Customer Efficiency** – truly 1 invoice ongoing, if as we sell
- **Customer Efficiency and Dealer Cash Flow** – 1 invoice for fixed amount, passes thru Customer AP swiftly w/ proper remittance
- **Cash Flow for Dealership** – in times of delinquency, the Leasing company has a stronger financial arm
- **Admin Dealer Benefit** – reduces # of contracts needing to be entered and managed in ERP, creates efficiency in cash applications

Incentivize Reps to contract base volumes, and to bundle!
 *bump the rate if base is contracted
 *bump the rate again if bundled to lease
 *bump the rate again if they capture printers too

LEASING; INTERNAL BUY-OUTS "PRO TIP"

- Establish company policy & Communicate internally
 - Customer accounts must be current with the leasing company, in order for any Trade Up or Internal Buyout to be processed

Option	Term	MSRP	Equip Pymnt	% MSRP	Lease Rate	Sub Fund	Trade Up	Final Funding
FMV	60	\$15,000.00	\$ 555.00	125%+	0.01863	\$29,790.66	\$6,000.00	\$ 23,790.66
FMV	60	\$15,000.00	\$ 555.00	125%+	0.01863	\$29,790.66	\$2,000.00	\$ 27,790.66
							GP^	\$ 4,000.00

How many deals/year with Trade Up?

Lease Admin Communicates:
 "Thank you for selecting ABC Technology as your solutions partner. Your NEW office equipment was installed on XX/XX/2021. In order to process the NEW agreement, our finance office is requiring your existing agreement be brought current."

20

FLEX YOUR MUSCLES
AND MAKE A CHANGE

CONTRACT MANAGEMENT (guaranteed revenue)

CPC Contracts – (billing the customer monthly for meters, no contracted minimum)

- Limit these types of Agreements
- Create Guaranteed Revenue, vs Variable Revenue

Contracts w/ Minimums in Place, BUT also billing Overages Monthly

- Stop the madness
- Reduce billing labor achieving ability to scale

Contracts w/ Proper Minimums in Place, AND experiencing \$0 Overages –

- Reduce billing labor, increasing productivity for on-time billing, improves cash flow, create scale

Contracts w/ Proper Minimums in Place, that we can move to flat-rate billing

- Satisfy a few conditions: Tenure, GP, T&C Protection
- Improve Customer Experience, Reduce Billing Labor/Expense, Protect the Account

Contracts that do not have proper minimums in place, AND are experiencing significant overages

- Think, “Comp Plan”
- Think, “How can Admin Help”
- Increase Contracted Base improves cash flow, creates stability, and improves business valuation

21

“Transitional Billing”(TB Invoices); which is a term and condition of the Lease Doc the customer signs when they finance equipment thru your company. And *the distribution of funds* for any transitional billing is dictated within the language of the MPA.

LEASING; TRANSITIONAL BILLING & BUY-OUTS

	Pymt Breakdown	Distribution according to MPA	D&A Date	Company's Fixed Booking Dates	Date ask Bank to Book For	Transitional Billing Period (days)	Transitional Bill Amount	Dealer Receives
Equip Portion	\$ 1,000.00	50%	4/6/2021	NA	4/6/2021	0	\$ -	\$ -
Service Portion	\$ 850.00	100%		4/1/2021	5/1/2021	24	\$ 1,480.00	\$ 1,080.00
Total Payment	\$ 1,850.00			4/15/2021	4/15/2021	8	\$ 493.33	\$ 360.00
				4/25/2021	4/25/2021	19	\$ 1,171.67	\$ 855.00
Equip Pro Rate	\$ 33.33							
Service Pro Rate	\$ 28.33							
daily pro-rate	\$ 61.67							

- Negotiate MPA to allow for 75% of Equip
- Make use of “fixed booking dates”
- Strategy 1: limit TB to < 15 days & do NOT award covered copies
- Strategy 2: no limit on TB invoicing, > 15 days will have to award covered copies

“...an invoice charging for the partial period of possession and use of the financed equipment prior to the lease initiating”.

22

TERMS & CONDITIONS; MPA
